NFS 302 Nutrition, Athletics, Performance and Behavior

Department of Nutritional Sciences, University of Toronto

2018 Winter Semester

Course Syllabus

1. Course Description:

This course will give an overview of the emerging and advancing role of chronic diet and supplements in athletics, performance, and behavior. Essentially, this course seeks to answer the question: "How should a human eat to optimize health, physical fitness and sports performance?"

2. Course Pre-requisite:

NFS 284 – Basic Human Nutrition

3. Learning Objectives:

- Acquire further knowledge and understanding of the science of human nutrition as it relates to exercise physiology, metabolism and sport performance.
- Examine the scientific basis and rationale for current nutrition recommendations for athletes and physically active people
- Explain the potential role of specific dietary supplements/ergogenic aids in optimizing physical performance and evaluate their usefulness and safety.
- Gain an awareness of the health issues and dietary challenges of athletes
- Apply acquired knowledge to identify and evaluate dietary strategies for enhancing sport performance in terms of its effectiveness and implications for health and safety.

4. Course Instructor and Teaching Assistants:

Instructor: Denis Collier, MSc

Registered Dietitian

CSEP Certified Exercise Physiologist Email: denis.collier@utoronto.ca

Office Hours: Thursdays 12:00-1:00PM FG 430 (*possibly changing in February)

TAs: Andreea Zurbau Jessica Watterworth

Christine Mulligan Laura Vergeer

Alex Schwartz

Lecture Details:

- 3 hour lecture, Thursdays 9:00AM-12:00PM
- Location: PB B250 (basement of the Pharmacy Building)
- Course website available on your Portal page in Blackboard

5. Textbook and Readings:

There is NO REQUIRED text book for this course.

However as a review of fundamental nutrition concepts the student may benefit from referring to the text book used in this course's pre-requisite: Smolin, Grosvenor, Gurfinkel. Nutrition: Science and Applications, 2012.

For a reference more specific to sports nutrition, the recommended text is Burke L and Deakin V. Clinical Sports Nutrition, 4th edition, 2010. This is available at the library.

Also information presented in course lectures will be augmented by a variety of key papers from scientific journals which will be posted on Blackboard. These materials are also testable.

6. Course Outline

Week & Date	Lecture Topics	
#1: Jan.4	"Sports, Nutrition & Critical Thinking" (plus introduction to the course)	
	What makes a human good at sports?	
	Fallacies of logical reasoning relevant to nutrition	
#2: Jan.11	"Energy for Optimal Performance":	
	Bioenergetics	
	Carbohydrates	
#3: Jan.18	"Building Bodies for Optimal Performance":	
	Protein & Muscle	
	Fat & Adipose Tissue	
#4: Jan.25	"All About Fluids"	
	Dehydration	
	Overhydration	
	Nutrition During Exercise	
	*Assignment #1 Due	
#5: Feb.1	Overview of Nutritional Supplements; Anabolic steroids	
#6: Feb.8	MID-TERM TEST (25%)	
	Exam Centre Room 100 9:00-11:00 AM	
#7: Feb.15	"Supplements for Physical Performance":	
	Creatine	
	Caffeine	
	Buffers	
	Beetroot Juice	

	• HMB		
#8: Feb.22	NO CLASS due to READING WEEK		
#9: March 1	"Vitamins & Minerals for Physical Performance":		
	• Iron		
	Calcium		
	Vitamin D		
	Antioxidants		
#10: March 8	"Nutritional Timing Around Exercise":		
	Pre-Exercise Nutrition		
	Post-Exercise Muscle Gain		
	Post-Exercise Energy Recovery		
	*Assignment #2 Due		
#11: March 15	Athletes Panel		
#12: March 22	"The Weight Lecture"		
	Weight management		
	Disordered Eating		
	GI function in Physical Performance		
#13: March 29	"Performance Nutrition Across the Ages": Youth to Masters		
#14: TBA	FINAL EXAM (35%)		

7. Assessment

Type of Evaluation	Due Date	Value
Assignment: Annotated Bibliography	Jan.25	10%
Mid-Term Test	Feb.8	25%
 Closed book 		
Multiple choice		
 Location: Building OISA Rooms: TBA 		
Assignment: Research Paper	March8	30%
Final Exam	During April	35%
 Closed book 	examination	
Multiple choice	period	
Location: TBA		
Total	100%	

8. Important Course Policies:

a) Electronic communication:

The most direct way to contact the instructor is via email: <u>denis.collier@utoronto.ca</u>. This email is only to be used for questions relevant to this course. The instructor cannot and will not provide answers/advice regarding personal nutritional matters.

All U of T students are required to have a valid U of T email address. You are responsible for ensuring that your U of T e-mail address is set up and properly entered in ROSI. Otherwise you will NOT be able to receive emails from your instructor as @mail.utoronto.ca addresses are the only addresses used by Blackboard. You are also responsible for checking your U of T email account on a regular basis. Failure to do so is not an acceptable excuse for missing important messages.

Announcements may be periodically posted on the course website and it is the student's responsibility to check there regularly.

b) Assignments and Turnitin Policy:

"Normally, students will be required to submit their course essays to Turnitin.com for a review of textual similarity and detection of possible plagiarism. In doing so, students will allow their essays to be included as source documents in the Turnitin.com reference database, where they will be used solely for the purpose of detecting plagiarism. The terms that apply to the University's use of the Turnitin.com service are described on the Turnitin.com web site".

The statement was prepared by the University lawyers and is available on our web site on the Turnitin page, under the Conditions of Use section at: http://teaching.utoronto.ca/ed-tech/teaching-technology/turnitin/how-it-works

For this course, students will be asked to submit both the annotated bibliography and the final research paper to Turnitin. Though submission of your assignment to Turnitin is voluntary, there must be an alternative method of detecting possible plagiarism. For those who elect not to submit to Turnitin, as an alternative you will be expected to meet with the prof for a short oral test during which you will be asked questions about the writing of the assignment and its content. Your assignment grade may be changed based on how well you answer these questions.

All the Turnitin submissions are reviewed. Students are expected to independently work on their assignments and properly paraphrase and cite sources used for their assignments. Students will be e-mailed if there are any concerns about their writing. Often this is no more than a discussion of how to properly paraphrase and or cite references, but the deduction of marks may also result. Failure to respond to such an e-mail will result in the deduction of assignment marks. If a serious case of plagiarism is suspected, the student's assignment will be forwarded to the Office of Academic Integrity for review and possible sanction.

c) Policy Regarding Late Assignments

A **HARD COPY** of each assignment is due at the beginning of the class on the due date. Submit the assignment directly to the instructor. If you miss class, assignments will be accepted after class up to 4:45pm on the due date, but there will be a 10% penalty and you must follow the procedure below:

1) Have your assignment date-stamped "Received" and marked with date and time in the main office of the Department of Nutritional Sciences (FG 316, hours 9am-4:45pm) and

2) E-mail Denis, the SAME day, so he knows your assignment is available in FG316.

Note: The hard copy of your assignment is the only version which will be graded. Submitting your assignment to Turnitin or by e-mail as "proof" of its timely completion is NOT acceptable; timely completion includes the budgeting of travel time to ensure you can submit your hard copy.

NO assignment will be accepted after the due date unless for some very compelling reason. A reason is far more likely to be acceptable if the student has notified the instructor (either via email or verbally) of the problem in advance of the due date. Poor time management, having several assignments due at the same time, having to study for term tests, computers crashing, etc are NOT compelling reasons for receiving an extension. Students are expected to complete their assignments as best they can, hand them in on time, even if incomplete, and accept that they may not get as high a grade as they would like. For more info students are referred to this resource: http://www.illnessverification.utoronto.ca/getattachment/index/Verification-of-Illness-or-Injury-form-Jan-22-2013.pdf.aspx

Students dealing with intense or ongoing personal distress or chronic illness, who may need special and continuing accommodation, may be asked for additional documentation and are advised to discuss their situation with their college registrar.

d) Policy regarding assignment re-reads:

If you would like have your assignment rechecked for the way your assignment has been graded, please submit in writing a brief explanation of where you believe an oversight has occurred. You may underline or highlight the relevant portions. The portions highlighted along with the remainder of the assignment will be reviewed and **your grade can go up, down or stay the same.** Please note that the higher your initial grade, especially > 80%, the less likely an upward adjustment of marks will occur.

Deadline for annotated bibliography requests: One week after assignment is returned. Deadline for research paper requests: One week after assignment is returned or the date of the final exam, whichever comes first.

e) Policy regarding missed term test

Excluding some very compelling reason, any student missing the term test will be given a grade of ZERO. There are NO make-ups. If you miss the term test (worth 25%), for compelling reasons, your final exam will be worth 60% of your final grade (25% +35%). You are required to provide an explanation for your absence. This can be a written explanation from you or a medical certificate. If you prefer, verbal explanations will also be accepted. Please contact Denis through e-mail to make an appointment. All discussions are kept confidential. Students dealing with intense or ongoing personal distress or chronic illness, who may need special and continuing accommodation, may be asked for additional documentation and are advised to discuss their situation with their college registrar.

f) Policy regarding missed final exam:

Policy regarding a missed final exam is determined by the Faculty of Arts and Science. If you have compelling reasons for missing your final exam, contact your college registrar to file a petition; do this quickly, there are deadlines. You must provide documentation to support your petition. If your petition is accepted you will be permitted to write a deferred exam. A deferred exam fee (approximately \$70) must be paid. **Note:** Students lose access to courses on Blackboard 90 days after the last day of classes, so be sure you have downloaded all documents you need to study from the course website before then.

g) Policy regarding rounding of final grades

Final grades will be rounded up to the nearest integer if they end in 0.450 or greater

Final grades ending with 0.449 or lower will be rounded down to the nearest integer

This rule will be strictly enforced with all grades **except** the following: 49%, 59%, 69%, 79%. If the first two digits of a student's grade tabulates to any of the above, the prof reserves the right to impose some increased subjectivity in the final rounding.

h) Lecture material, audio recordings and intellectual property

Please note that the lecture presentations and course materials are the intellectual property of the instructor. The distribution, transmission, reproduction or re-posting of the NFS 302 lecture materials, including audio recordings in whole or in part, is **NOT permitted** without the consent of the instruction. All students enrolled in NFS302 are permitted to use the material for personal study. Please check with the professor re: permission for audio recordings of the lecture for personal use. Students are NOT permitted to post these audio files in any other location, except personal and private online repositories, without the permission of the course instructor.

i) Academic Integrity

Students are expected to conduct themselves with academic integrity. The Code of Behaviour clearly describes activities that are considered academic misconduct:

http://www.governingcouncil.utoronto.ca/policies/behaveac.htm

Students are urged to regularly review the code as ignorance of the rules is not an acceptable excuse.

Accessibility Needs: The University of Toronto is committed to accessibility. If you require accommodations for a disability, or have any accessibility concerns about the course, the classroom or course materials, please contact Accessibility Services as soon as possible: http://www.accessibility.utoronto.ca/
